maximum protection

EVEREST PREMIUM MOTOR OIL

Everest Full Synthetic and Semi-Synthetic Motor Oils are superior quality multi-grade oils designed for maximum engine protection even under the toughest driving conditions. They outperform conventional motor oil, reduce friction and wear at start-up and protect your engine against performance robbing sludge and varnish deposits. They are fully licensed to meet or exceed car manufacturers' ILSAC GF-5 and American Petroleum Institute (API) SN classifications and are compatible with all prior API classifications.

Our Research and Development team continue to develop and formulate all our products to meet the latest state of the art manufacturer's warranty specifications and requirements. Everest Motor Oils are recommended for passenger car, truck, sport utility vehicle and other mobile and stationary engines.

Superior quality control ensures crucial protection and extreme performance that meets or exceeds most American, Asian and European manufacturers' standards and various other OEM's specifications.

QUALITY IS VITAL

When looking for the best automotive lubricants for your vehicles, business or other usage, begin with a reputable company with quality products. US Global Petroleum emphasizes greatly on quality, which is why we have strict quality control measures that are implemented during the manufacturing stage. Being a B2B operation in the oil & gas industry, we understand the importance of maintaining quality and till date we have not compromised in this aspect. All products undergo extensive testing in our laboratories and are deemed ready for sale only after they pass certain preset parameters. Golden Stallion, Everest, and Rover - are some of the brands we actively promote in the markets. They have performed well above market standards and continue to do so.

control and reliability

QUALITY CONTROL

Our commitment to quality, service and integrity makes us a reliable partner in today's challenging manufacturing environment. We take pride in the superior quality of our products and the implementation of the best quality control practices in the industry.

We continuously develop a knowledge base for our customers to help them understand the latest technology trends in the industry. We sell more than oil - we offer ongoing customer support and help building strong business relationships to grow our business together with our customers.
