Type A Automatic Transmission Fluid

Tiger's Head Type-A Automatic Transmission Fluid is an economical fluid blended from quality base oils for use in older automatic transmission and power steering units requiring Type-A Fluid and/or where fluid leakage and consumption is a problem. Tiger's Head Type-A ATF is dyed red to aid in leak detection. It is an excellent top-off fluid that blends well with original transmission fluids, but is not recommended for complete fluid changes.

Always check your car manual for proper service recommendations.

*Type-A ATF fluids are not recommended for use where DEXRON® or MERCON® fluids are specified.

Approvals, Applications and Benefits

- For older automatic transmission and power steering units
- Dyed red to aid in leak detection
- Corrosion, wear, and rust protection
- Excellent top-off fluid

Typical Characteristics - TYPE A - V211216

GRADE	Test Method	Type A
Color	Visual	Red
Viscosity @ 100°C, cSt	ASTMD 445	7.2
Viscosity @ 40°C, cSt	ASTMD 445	36.0
Viscosity Index	ASTMD 2270	150
Pour Point, °C/°F	ASTMD 97	-40/ -38.2
Flash Point, COC °C/°F	ASTMD 92	160 / 320
API Gravity	ASTMD 1298	31.4
Brookfield Vis.cP @ -40°C	ASTMD 2983	-

Test Method ASTM - Typical test data are average values only. Minor variations, which do not affect performance, may occur.

HANDLING AND SAFETY INFORMATION - Refer to ROVER (SDS) Safety Data Sheets for proper handling and safety information. Use the same care and handling as for any petroleum product. Nothing herein shall be deemed to constitute a warranty, express or implied, that said information or data are correct or that the products described are merchantable or fit for a particular purpose, or that said information, data or products can be used without infringing patents of third parties.

Suitable for:
older automatic
transmission and power
steering units
