

POWER STEERING FLUID

+1 (773) 376-9660 / www.warcopro.com / www.usglobalpetroleum.com

WARCO Power Steering is a premium quality fluid blended from superior base stocks and select additives to provide protection against wear, oxidation and corrosion. It can be used for complete fluid replacement or as a top off in passenger cars and light trucks. WARCO Power Steering Fluid meets the service requirements of both foreign and domestic passenger vehicles and light trucks. Consult your owner's manual for specific fluid recommendations.

Benefits and Applications

- Longer Life - reduced friction for excellent protection against wear
- Highly resistant to viscosity and thermal breakdown
- Wide application – modern additive technology protects system components
- Controls leaks and squeals

Typical Characteristics - PSF

GRADE	PSF
Color	1.5
Viscosity @ 100°C, cSt	7
Viscosity @ 40°C, cSt	33.2
Flash Point, COC °C/°F	185 / 365
Pour Point, °C/°F	-48 / -54.4
Viscosity Index	165
Brookfield Viscosity, cPat-40°C	18000
API Gravity	27.97
Specific Gravity @ 15.6/15.6°C	.88

Test Method ASTM - Typical test data are average values only.
Minor variations, which do not affect performance, may occur.

V220128

HANDLING AND SAFETY INFORMATION - Refer to WARCO (SDS) Safety Data Sheets for proper handling and safety information. Use the same care and handling as for any petroleum product. Nothing herein shall be deemed to constitute a warranty, express or implied, that said information or data are correct or that the products described are merchantable or fit for a particular purpose, or that said information, data or products can be used without infringing patents of third parties.
