

Type A Automatic Transmission Fluid

+1 (773) 376-9660 / www.warcopro.com / www.usglobalpetroleum.com

WARCO Type A Automatic Transmission Fluid is an economical fluid blended from quality base oils for use in older American, European, and Asian automobile and light truck automatic transmissions, hydraulic systems and power steering units requiring Type A Fluid and/or where fluid leakage and high consumption is a problem. WARCO Type A ATF is dyed red to aid in leak detection. It is an excellent top-off fluid that blends well with original transmission fluids, but is not recommended for complete fluid changes.

*Type-A ATF fluids are not recommended for use where DEXRON® or MERCON® fluids are specified.

Approvals, Applications and Benefits

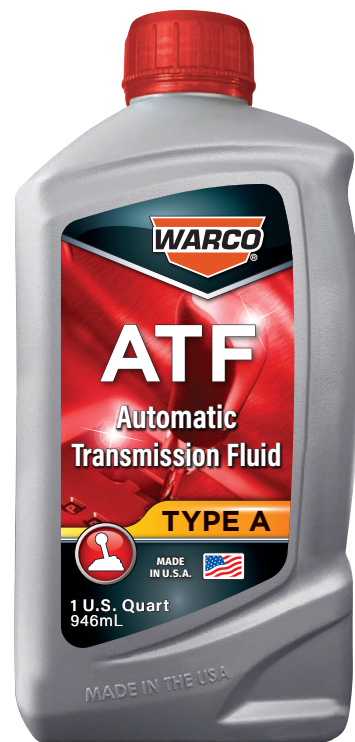

- Additives for smooth shifting
- Fights rust and corrosion
- Dyed red for leak protection

Typical Characteristics - Type A

GRADE	Test Method	TYPE A
Color	Visual	Red
Viscosity @ 100°C, cSt	ASTM D445	7.2
Viscosity @ 40°C, cSt	ASTM D445	36.0
Viscosity Index	ASTM D2270	150
Pour Point, °C/°F	ASTM D97	-40 / -38.2
Flash Point, COC °C/°F	ASTM D92	160 / 320
API Gravity	ASTM D287	31.4
Specific Gravity @ 15.6/ 15.6°C	ASTM D4052	—

Test Method ASTM - Typical test data are average values only. Minor variations, which do not affect performance, may occur.

Suitable for:
Older
Automatic
Transmission

V220127
