USGLOBAL
PETROLEUM

COMPANY PROFILE
Welcome

Welcome to US Global Petroleum!

US Global Petroleum is a manufacturer and a global distributor of API licensed quality lubricants, hydraulics and chemicals. We started our business in 2008 and expanded in 2011 by acquiring the Conoco Phillips plant in Franklin Park, Illinois, and since have enjoyed rapid business growth.

The plant was previously owned by both Shell and the Magie Brothers Oil Company, a name that has been in the oil business since 1900. The Magie Brothers Oil Company moved through several locations in the Chicago area in the 20th century with its last stop in Franklin Park, IL, where US Global is now operating. We are proud to be a part of that oil industry evolution and we merge it with the most innovative technology, equipment and knowledge base.

Today, US Global annually delivers more than 20 million liters of the finished product blended under precise supervision and quality control of US Global chemists and engineers. Our customers are wholesale automotive aftermarket distributors, retail chains, gas stations and government agencies that demand the best value from a reliable long-term business partner.

We offer the most competitive manufacturing prices and uncompromised “made in the USA” quality and service. We continuously develop a knowledge base for our customers to help them understand the latest technology trends in the industry. We sell more than oil - we offer ongoing customer support and build strong business relationships to grow our business together with our customers.

Our vision is to be a true partner to our customers and suppliers alike. So let us know how we can help you with your business, because your success is our success.

We welcome our business partners to tour our plant. Please contact the US Global sales team to schedule your visit.

US Global Team
Team

US Global is a team of professionals with years of experience in the industry. We are proud to be an international, multi-language company and employ people of various cultures, races and religions without age and gender bias.

Competitive Advantage

- Customer Relationships
- Knowledge Base
- Team of professionals
- The most competitive manufacturing prices
- Uncompromised “Made in the U.S.A.” quality
- Flexibility
- Prompt deliveries
- After sales support
- Value-added service
Our Markets

US Global focuses on developing new international markets. Our team provides expertise in import/export compliance and hazardous shipment handling.

ISO 14001:2015 - Environmental Management System
◆ Manufacturer Site

- 5.9 acres
- Production facility
- 1 million gallons storage tanks
- Outside tank capacity of 900,000 gallons
  Inside tank capacity of 100,000 gallons
Packaging Lines

- 1 inline filler line
- 2 inline fillers: 1 qt/1 liter; 5 qt/5 liter; 1 gal/4 liter
- 2 drum/tote fillers: 16 gal/60 liters; 55 gal/208 liters; 275 gal/1000 liters; 330 gal/1250 liters
- 1 pail filler: 5 gal/18.9 liters; 6.65 gal/25 liters; 2.5 gal/9.46 liters
Logistics

- Direct railroad access
- Our own specialized delivery fleet
- Import/export expertise
Warehouse

- Clean, dry, temperature controlled space
- 4 loading docks; 1 drive in; 5 rail station; 4 loading racks; 4 in door scales
- Inventory Management System
◆ Quality Control

- Each batch of raw materials and finished products is carefully inspected
- Samples are kept in the production archives for two years
- State-of-the-art fully equipped and certified Lab on site

◆ Quality Control, Testing

- Cold crank
- Pour point
- Flash point
- Additives levels
- TBN
- Moisture
- Crackle test
- Density/API gravity
- Viscosity at 100 C°
- Viscosity at 40 C°
Knowledge Base and Training

Our customers are our partners, we provide knowledge base and support to build strong interpersonal relationships.

We are interested in growing our partners’ business. Because your success is our success.

Educational materials available upon request.

Engine Oil

Dear Mr. Mohammad,

Analysis of the engine oil

Everest Full Synthetic Motor Oil SAE 5W-40 (Oil Code: LBB 14729-h) has shown that this product in question meets the requirements in accordance with VW Standard 502 00 and VW Standard 505 00. This engine oil is therefore suitable for use in our petrol and diesel engines, including engines with turbochargers, in accordance with the Owner’s Literature for our products.

So that it is clear to both customers and workshops that this approval has been granted, containers should bear the statement:

"Approved under VW Standard 502 00 and VW Standard 505 00"

Please note that this approval expires after 36 months, at which point compliance with the then valid VW standards must be verified again.

Yours sincerely,

[Signatures]

Diether
dr. kramer

We are pointing out that this letter only addresses whether product reviewed meets the VW standards. We do not address or express any view on compliance with national chemical inventories, the marketability in any sales market or the compliance with local chemical substance laws or other regulations.

---

MB-Approval Certificate

New Approval - Engine Oil

MB-Approval 229.3 for "Everest Full Synthetic Motor Oil SAE 5W-40"

Oil Code: LBB 14729-h, SAE-Grade: SAE 5W-40

Redelivered to LBB 14734 with Oil Code: LBB 14734, AFTON Chemical GmbH

Dear Sir or Madame,

the aforementioned operating fluid complies with the requirements of the Mercedes-Benz Specifications for Operating Fluids, sheet 227.3, and is therefore approved for the respective Mercedes-Benz vehicles and assemblies. The application range is shown on the MB sheet and further defined on the sheet 227.3. Further requirements, e.g. SAE grades, capacities, change intervals etc. must also be observed.

The following regulations apply for the MB-Approval:

- The MB-Approval comes into force on the date shown on this certificate.
- The MB-Approval will expire in 5 years at the latest.
- The MB-Approval automatically terminates on expiry of the validity period at the latest.
- The MB-Approval is only valid as long as the product name is listed in MB Soft-ONLINE: http://www.mercedes-benz.com
- Applications for renewals or new approvals etc. must be made in good time.
- In addition, the regulations laid down in the "Obligations Regarding Approval for Operating Fluids" contract signed on 11.02.2016 apply.

A 2-liter back-up sample of each formulation, which can be called upon by Daimler AG at any given moment, must be retained for at least 3 years. We will inform you of the dispatch address.

Sincerely

Examiner AG
